## Better Water Needed

### Town Plans To Drill Three New Wells

The Town of Vulcan is planning to drill three new water wells this year in an effort to find better water. At the February council meeting, the waterworks committee was authorized to proceed with arrangements for locating and drilling three new wells under the Winter Work Incentive Program, whereby 75% of the labor costs is paid by the senior governments.

Exact location of the projected new wells has not been determined as yet, although the most promising area seems to be at the north side of the town. The water from Vulcan's largest producing well is heavily loaded with Glauber's salts and, if a better supply of water is found, it is planned to cut this well off from the water system and keep it as an emergency supply well.

The airport wells are now definitely out of the picture as a water supply for the town because of the high sulphur content of the water, but the town is still negotiating with the Crown Disposal Corporation for the purchase of the pumps and other equipment at the well sites.

## Ladies Win At Calgary Bonspiel

Two Vulcan rinks took prizes in the Calgary Bonspiel last week, out of 120 entries. The Miller rink, with Olga and her three daughters, Marguerite Whitehead, Donna Armstrong and Betty Lou Weiss won 4th place in the "C" event. The Irma Middleton rink, with Viola Mensinger, Clara Love and Laura Houlton won the "F" event and received the Gas Co. trophy.

Vulcan was further honored at the Curling Club banquet, seating 500 guests, when Mrs. Miller was invited to sit at the head table and reply to the toast to the out-of-town rinks.

## Shower Honors Miss June Joiner

Some 60 friends of Miss June Joiner, bride-elect of the month, gathered Thursday evening, March 4, in the United Church parlors to honor her at a miscellaneous shower. The Guild of St. Aldhelm's Anglican Church with Mrs. R. J. Buehler and Mrs. Charles Northcott were hostesses, assisted by a number of friends.

An enjoyable program of bingo and a comic skit, presented by Mrs. Gwen Graham, provided a happy hour of entertainment.

Marilyn Joiner and Betty Ann Northcott brought in a model red barn, which proved to be full of Marilyn and Betty Ann.

many gaily wrapped gifts. Mrs. Agnes Petrosky, on behalf of those assembled presented the guest of honor with her gifts and expressed the good wishes of all for many years of happiness.

Assisting June in opening her colorful packages were her mother, Mrs. S. Joiner and Mrs. Degens, mother of Loniend, mother of the groom-elect, and Mrs. Joiner, Sr.

Miss Glenna Joiner, who will be her sister's bridesmaid at her wedding this week, was in charge of the bride's book.

After all the gifts were opened a most gay and unique hat was made by Mrs. Uretta McIver, from the rain-bow hued ribbon bows that had been used to wrap the present. This hat was then presented to June as a keep-sake. The guest of honor very graciously thanked her friends for their kind wishes and lovely and useful gifts for her new home.

A dainty lunch was then served by the hostesses, assisted by Mrs. Jean Robbie, Mrs. Shirley Franks, barn, which proved to be full of Marilyn and Betty Ann.

The Vulcan Canadian Legion rink, provincial champions, leave this Thursday by air for Summerside, Prince Edward Island, where the Dominion finals will take place March 14 to 17. The team will be accompanied by Jim O'Reilly, who will represent the Alberta Provincial Command, as well as the local Legion Branch, of which he is president.

A rink from each province will compete at Summerside for the Gooderham & Worts Dominion Championship Trophy.

An estimated 9,000 curlers have been involved in the eliminations for the Legion's national curling finals. Teams were entered from almost 900 branches.

The Legion's curling event has grown tremendously in recent years. It started three years ago on a national basis. The first championship was held in Winnipeg. Then came Coppercliff. Last year's finals were held in Lloydminster, Sask.

The G & W trophy hasn't been east of the Lakehead, except for yearly trips to the engravers. Curlers from Kamloops, Saskatoon and Winnipeg have won the past three national championships.

The championships are an outgrowth of interprovincial competitions which started in Alberta in 1950. That year Alberta and Saskatchewan Legion curlers entered a competition for the G & W trophy. Manitoba joined in 1956. The same year the championships were set up on a national basis, the first event being run off at Winnipeg in 1957.

## SERVICE BOARD NOTES

Norman Soder

Warbles are one of the five official pests. They are considered the worst and most expensive livestock pest in Alberta. The warble flies, during the egg laying season, cause cattle to stampede with resultant loss of milk and flesh. Grubs spend about nine months burrowing through the body, of the animal, causing considerable pain, irritation and unthriftiness. Flocking plants report considerable wastage of meat resulting from warble cysts having to be cut off, disfigurement leading to lower grades and a decrease in the value of the hides. Warble flies cause an estimated 10% reduction in beef and 25% loss in milk production.

Warble flies are large, dark hairy flies with bands of yellow or orange, somewhat resembling the small bumble bee. They live only a week and thus are seldom seen. Females lay from 400 to 800 eggs, during bright sunny days of the summer, on the hair of the legs and lower parts of the body. Small grubs hatch out in a few days, penetrate the skin and migrate through the animal system, until

## White Hats For Legion Curlers

Word has been received that Harris Matlock, Ray Wellman, Jim Jensen and Roy McLennan are to be the recipients of four white hats, gifts of the City of Calgary and presented by Mayor Harry Hays on their departure from Calgary on Thursday evening. The Vulcans are also to be interviewed on a 6:00 p.m. sports broadcast on TV the same evening before boarding a plane for Summerside, P.E.I., and the Dominion Legion Curling Finals.

Plans have also been made to have daily results of the Vulcan rink's progress, wired back to the Canadian Legion Branch in Vulcan. Play in the championships starts Monday, March 14 and concludes Thursday, March 17.

They appear towards spring as grubs under the skin of the back. After about six weeks in this position, the full grown grubs squeeze through their breathing holes and drop to the ground. The grubs change to hard, black pupae, which, after a month or longer, emerge as adult flies.

To destroy the grubs, after they reach the oaks of the animals, hand or spray treatments can be employed. This should be done during March or April, depending on the area and weather, when most grubs are mature and ready to drop. Hand treatment, for smaller herds, is done by rubbing warble powder into the grub holes or scrubbing the oaks of the cattle with a warble wash. A stiff brush should be used to penetrate the hair, remove the scab and get the insecticide through the grub hole. For treating herds or organized groups of herds a power sprayer is a great labor saver. Using pressure of from 400 to 600 p.s.i., required to penetrate the hair and remove the scab to get the liquid into the grub holes, and a wash consisting of 7 1/2 lbs. of 5% Rotenone powder added to 89 gallons of water. Approximately 140 head of cattle can be effectively treated with this amount of wash. Two or even three treatments at 30-35 day intervals are recommended.

The Service Board sprayer will be available to the stockmen of the County on a cost basis. This will include the operators' wages and the chemical. Anyone wishing to take advantage of this should contact his neighbors and if possible, organize programs on a community basis to include areas of possibly half a township. This will remove the necessity of a lot of travelling for the operator and equipment and help keep expenses at a minimum.

Anyone who treated their cattle with Coral last fall will not have to treat their herd this spring.

## High School Tournament

### Champion and Vulcan Basketball Teams Win

The girls' basketball team from Champion High School, coached by H. Cummins, won the Mitchell trophy for the fifth consecutive time in the annual basketball tournament held in Vulcan on March 5. The Vulcan High School boys team, coached by Rev. Bob Johnson, regained the Kumlin trophy which they held previously in 1956 and 1958 but which had gone to Carmangay in 1955 and 1957 and to Champion in 1959. The trophies are presented to the winners of a single knockout competition for boys and for girls teams from the County High Schools. Teams from Vulcan, Champion, Carmangay, Arrowwood, Mossleigh and Milo participated in this year's tournament.

In the final boys game Vulcan downed Champion by a score of 74-27 as everything went right for the winners while the opposite was true for the losers. Earlier in the day Vulcan edged out Carmangay 28-26 as the latter came up with an inspired display to make the best showing of any team that has played against Vulcan this year. Carmangay had defeated Arrowwood 26-15 to move into the semi-finals against Vulcan. Champion played two games in order to enter the finals; in doing so they sidelined both Mossleigh and Milo defeating them by scores of 26-12 and 29-20 respectively.

Games in the girls section saw Arrowwood defeat Carmangay 23-15 to enter the finals against Champion. The Champion girls had overcome Milo, then went on

to defeat Arrowwood 44-13. Earlier games saw Carmangay edge Mossleigh 14-10 while Milo just made it past Vulcan 22-21. The latter was an excellent spectator game as the final outcome was decided in overtime.

Referees for the tournament were brought in from the Lethbridge area in an effort to secure effective and unbiased game handling. These referees again did an excellent job and all those who participated in the tournament had an opportunity to learn more about the games as a result of the effective handling.

Proceeds from the sale of tickets at the door go toward paying the expenses of the tournament which is self-supporting and any surplus is set aside in a fund for future tournaments. The afternoon games were well-attended, but there was not too much spectator interest in the final games as evidenced by the small crowd, composed mostly of people from other points in the County, which was present for the last two games.

The basketball tournament is sponsored annually by the County of Vulcan Principals' Association. The trophies were presented to the captains of the winning teams, Kenneth Orchard and Beverly Decker, by W. McDaniel of Arrowwood, who is the president of the Association.

Last year more than 14,000 wives and relatives of hospitalized veterans were overnight guests at eight Red Cross Lodges.

## Jordan-Bride Rites At United Church

A recent double-ring ceremony in Vulcan United Church, solemnized by Rev. D. Sharpe, united in marriage Miss Marjorie Lynn Bride, youngest daughter of Mr. and Mrs. Harold Bride, and Ronald Charles Jordan, youngest son of Mr. and Mrs. James Jordan of Champion.

The bride, who entered the church on the arm of her father, wore a floor-length gown, designed and made by herself, of chantilly lace and crystal satin, the bodice featuring lily-point sleeves and a scalloped neckline. Her elbow-length illusion tulle veil misted from a Juliet headpiece studded with iridescent sequins, and she carried a white presentation Bible topped with red and white tea roses with red sweetheart rosebuds featured on cascading white satin streamers.

The maid of honor, Miss Pennie Howlett, wore an afternoon dress of red velvet and carried a heart-shaped bouquet of white carnations. The two bridesmaids, Miss Kathy Nolte and Mrs. Margaret Leismier were identical red velvet dresses and also carried heart-shaped flowers.

The groom was attended by his brother, Melvin Jordan. The guests were ushered to their places by Richard Hall, brother-in-law of the bride and Vernon Jordan, brother of the groom. During the signing

of the register, Donald Hanson sang, "Because."

The reception for 100 guests was held in the United Church basement with the Valentine theme used as decoration. The bride's table was centered by a three-tiered wedding cake surrounded by white candles. Kenneth Bride, uncle of the bride, proposed the toast to the bride, and the groomably responded. Melvin Jordan proposed the toast to the bridesmaids. Merle Smith acted as master of ceremonies. For receptional entertainment Miss Linda Bride played two piano selections and Donald Hanson sang, "He."

The bride and groom, Mr. and Mrs. Bride and Mr. and Mrs. Jordan received the guests. Mrs. Bride wore a teal blue dress with matching accessories and Mrs. Jordan wore a black and pink brocade dress with pink accessories. Both mothers wore deep rose corsages of tea roses. Following the reception, a wedding dance was held in the Champion Community Hall.

For their honeymoon to northern points, the bride chose a sky blue brocade dress with navy blue accessories. Out-of-town guests were from Lethbridge, Taber, Iron Springs, Champion, Brant, Ensign, Blackie, Calgary, Staveland, Lomond and Saskatoon. Mr. and Mrs. Jordan will reside in Vulcan.

### Evangelical Free Church

The Evangelical Free Church, Champion, this week is co-operating in an international program for Progress Jubilee marking the 75th anniversary of the Evangelical Free Churches.

A jubilee banquet on Thursday, March 17, at 7:00 p.m., will bring to the church Dr. Arnold T. Olson, Minneapolis, president of the Evangelical Free Church of America as the main speaker.

Fifty percent of all funds raised in the Jubilee drive will remain with the local congregation for

one of its projects.

The Program for Progress will result in the establishment of major outposts of Christian faith in all parts of the world. Among the international projects scheduled are Bible institutes or seminaries in Venezuela and the Belgian Congo. A new school will be erected in Canada. The blueprint also calls for major advances in Hong Kong, the Philippines and Japan in addition to a variety of extensions in North America.

"Tremendous enthusiasm has been noted throughout churches in North America," President Olson stated. "Under God we trust that our immediate financial goal of 2½ million dollars by 1960 will be far surpassed. Indications from the churches which already have held their Jubilee celebrations prove that the goal is definitely in sight and that the surge which has developed the Free Church extend it even more in days to come."

The local congregation was organized in 1949. It is one of more than 450 churches affiliated with the Evangelical Free Church in Canada and the United States.

### Felicity Club

The Felicity Club met at the home of Mrs. Irene Smith with Mrs. Doris Davies acting as hostess. There were nine members and one visitor present. Roll call was answered with each member wearing something green for St. Patrick's Day. "Happy Birthday" was sung to Mrs. Evelyn Long, Mrs. Evelyn Bjornson and Mrs. Carrie Davis. Mrs. Doris Davies and Mrs. Irene Smith, who had been hospital patients in February, received gifts.

Guessing who their secret "good neighbor" had been during the past year provided much enjoyment and excitement for the ladies. Very few were successful in guessing the right person and there was a charge of five cents per guess.

Mrs. Racile Ellis moved a vote of thanks to the retiring executive, thanking them for the work they have done in keeping the club such a success. Mrs. Smith won the raffle which was supplied by Mrs. Bjornson. Mrs. Ellis and Mrs. Bjornson showed slide pictures for the pleasure of the ladies. Many of these slides had been taken at Felicity Club socials.

The retiring executive, Mrs. Hazel Lundberg and Mrs. Davies served delicious refreshments following the St. Patrick's theme. Each member found a group picture of the club members in their serviette, compliments of the executive.

The next meeting will be held in the new home of Mrs. Lois Schultz at Lethbridge on April 6. Roll call will require each member to wear a corsage at this meeting.

## HOW TO PAINT A ROOM IN SECRET

Even if the weather keeps doors and windows closed, there are no painty smells to seep through the house, no fumes to make closed room painting unpleasant. And Color-Spree whizzes on with brush, roller or spray, is self-smoothing and dries in thirty minutes or less. No one will even know you've been painting.

Here's the easy-to-use, hard drying, washable flat wall paint you've always wanted. Plastic Color-Spree is self-priming, touch-ups and laps don't show, and spatters clean up with a damp cloth. Brushes and rollers wash clean in water.

There's no easier, pleasanter, "bother-nobody" way to fresh colorful rooms than Kyanize Plastic Color-Spree.

Many years ago in England the fair price of a Bible was about 37 pounds. The wages of a working man at that time was three half-pence a day. ## Bankers Boost Local Advertising

How valuable is local newspaper advertising to local business? Here's what the American Bankers magazine, a publication which represents a traditionally hard-headed profession, has to say:

"No business men or woman in any town should allow a newspaper to go to press without his or her name and business being mentioned somewhere in its columns. This does not mean that you should have a whole, half or even a quarter page advertisement in each issue of the paper, but your name and address should be mentioned if you do not use more than a two line space. A stranger picking up a newspaper should be able to tell what business is represented in a town... it's the best possible town advertiser. The man or woman who does not advertise does an injustice to himself or herself and definitely to the town."

## Of Many Things

By Ambrose Hills

### THE IMPORTANCE OF HOME.

I have had occasion to spend a good deal of time with older people lately, and in my dealings with them I have found one thing that seems always to come up. They insist, without exception that when they look back over their lives the most important memories are of home... the homes they lived in as children, and the homes they provided for their own families. One old man told me sadly that, "I guess I put less effort into my home than anything, but got more out of it." He said that if he had it to do over again, he would work just as hard at being a good member of the family circle as he did at being a successful preacher.

That made me think of Maurice Chevalier who, at 70, is creating new and fabulous successes. Chevalier has been smart; he has made several fortunes, but he kept his life very simple. "My life has always centered in my home," he said recently. He spends his money carefully, and most of it goes into his home. None of it goes to bluff others about his wealth. He doesn't gad around. He spends many nights watching television, and he goes to bed early. "I want to live the kind of life I believe in," he said, "and not the phony kind."

It seems to me Chevalier has the right idea. I am pleased that TV seems to be helping to make home a central part of our lives these days, although I wish it could be done without too much TV watching. A nation of citizens raised in good homes is going to be a good nation, and strong.

I read that in China the communists are taking children away from the family as soon as possible,

and raising them impersonally in communes. I grieve for those children, and for China itself. What millions of fine memories are being destroyed! And worst of all, those who are perpetrating this terrible thing are doing it in the name of humanity. They are convinced they are being virtuous, because they believe that in the long run China will profit from it. That, to my mind, is the curse of these "isms." They all claim great virtue. They all seem able to commit the most heinous crimes while mouthing pious platitudes about the systems they are building!

Let's hope Canada continues to make home a sacred place.

## Letters to the Editor

To the Editor of The Advocate,  
Dear Sir:

Again I would like to write to your good paper and extend an invitation to all women in District 12 to attend the Farm Women's Conference on April 1, at the High River Memorial Centre. A very worthwhile all day meeting has been planned, with registration commencing at 9:30 a.m.

Luncheon will be served right in the centre, giving the ladies a chance to enjoy a social hour together. Then before going home there will be coffee and doughnuts. Mrs. Gibeau from Edmonton will bring greetings from the provincial executive. Mr. Nell from the John Howard Society will bring a film of his own, which is excellent. Please keep April 1st open. Thanking you again for the privilege of writing to your good paper.

Yours sincerely,  
Mrs. F. H. House  
F.W.U.A. Director

IN MEMORIAM  
MATLOCK—In loving memory of our dear son and brother, Ptl. Sgt. Elmer Keith, missing from a flight over Verdun, France, March 8, 1943.

Seventeen sad and lonely years have passed,  
Since our great sorrow fell:  
The shock that we received that day  
We still remember well.  
How his life was shed we know not:  
What his last word, look or thought,  
Only that he did his duty—  
Died as he bravely fought.  
—Ever remembered by his Mom, Dad, sister and brother. 31-c

CATTONI—In loving memory of Alfonso "Tony" Cattoni, who passed away March 13, 1959.

—Remembered by his son and daughters, brothers, sisters and brother Father Don Adriano Cattoni of Italy, nephews and nieces. 31-p

LAUGHLIN—In loving remembrance of Mrs. Anna Laughlin, who passed away March 12, 1955.

Tonight the stars are gleaming  
On a lonely, silent grave,  
Where sleeps in dreamless slumber  
One we loved but could not save.  
May heaven's winds flow softly  
On the sweet and hallowed spot,  
Where the one we love lies sleeping  
And shall never be forgot.  
—Ever remembered by her brothers and sisters. 31-c

AN ARTIST'S IMPRESSION (at top) of the Bristol Type 188, a new British high-speed research plane capable of flying at more than 1,500 miles an hour, which is scheduled to begin its first flying tests later this year. The picture at bottom, right, is the first to be released of the Type 188 under construction at the Filton factory of Bristol Aircraft Ltd.

The aircraft, being built to the order of the Ministry of Aviation, is a mid-wing monoplane powered by two De Havilland Gyron Junior reheated turbojet engines mounted in wing nacelles. Built of welded stainless steel, it is intended for investigations into problems of extremely high speed flight. Entirely new techniques had to be evolved for the construction of the single seat body to meet heating problems.

After familiarisation flying, flight speeds will be advanced by progressive stages from low speeds to transonic and ultimately supersonic speeds.

## Chevrolet Trucks outwork, outlast 'em all

Exhaustive testing proves major components last up to four times longer.

Totally new cabs proven 67% more twist-resistant.

New frames for many models up to 4.8 times more torsionally-rigid.

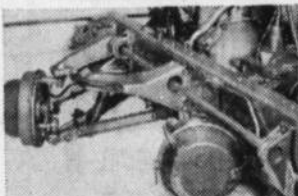

These are typical 1960 Chevrolet Truck facts and figures. They, plus Chevrolet's revolutionary new features, mean more profit, through:

longer life, less maintenance, easier working, outsized cargo space, extra economy.

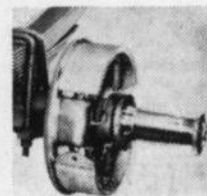

Look into Chevrolet value today. You'll find that Chevrolet is really built to build your trucking profits to a new high. You'll find dozens of extra convenience and profit-making features such as the way Chevrolet's big new full-width hood and low fender crown make underhood components more accessible for faster, easier servicing. You'll find variable-rate rear springs that come in high capacities to accommodate big payloads, adjusting spring resistance automatically as you add

more weight to the truck. And in the power department you'll find that there's no match anywhere for Chevrolet's high-power, high-torque V8's or tough dependable 6's. Every Chevrolet power-plant gives you peak performance with maximum economy. There's no end to the reasons why it will profit you to see your Chevrolet dealer today about Chevrolet Trucks' big new build. He's waiting for your call, do it now!

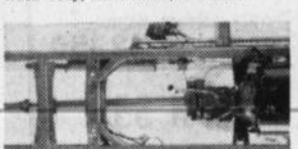

NEW front suspension features radically new independent torsion springs. Now Chevrolet's front wheels step right over bumps. Tough torsion springs soak up shocks. As much as 58% of objectionable road shock is absorbed before it reaches truck body, sheet metal, or driver.

NEW front suspension features radically new independent torsion springs. Now Chevrolet's front wheels step right over bumps. Tough torsion springs soak up shocks. As much as 58% of objectionable road shock is absorbed before it reaches truck body, sheet metal, or driver.

NEW brakes provide maximum safety in bringing a loaded truck to a fast, sure stop. Extra-wide lining wears longer. Choose from vacuum-hydraulic units, air-hydraulic and full air-brakes.

NEW box-section frames, provide new do-the-job brawn. Chevrolet's box-section, rail design frame is stronger than ever. Massive "K" or "X" brace cross-members increase truck stamina by adding to torsional rigidity.

NEW precision-balanced wheels. This typical Chevrolet attention to detail gives easier safer handling, longer tire life, less shimmy. Remember Chevrolet truck front wheels are factory balanced.

### Auction Prices

On March 1, a good crowd attended the cattle sale at High River Auction Mart despite the cold weather, with bidding spirited. The top ten Holstein cows sold for an average of \$295.50 with the top cow selling for \$390.

The good registered cattle sold at satisfactory prices but the common ones only brought prices on the level with commercial cattle. This should be a warning to all purebred breeders to cull their herds more closely, officials warn.

At the cow sale on March 3, cows sold readily and at prices up to \$187.50. The common and medium kinds met with an indifferent demand and sold at beef prices.

Saturday's regular sale, March 5, saw buyers bidding readily. With no choice stock on offer, good steers sold to \$20.70, heifers to \$19.30. Cows sold to \$15.80 and bulls to \$16.40. Steer calves went to \$23.50 and heifer calves to \$20. The calf prices were sparked by export orders for the better kind.
